#### **About Celerant**

Celerant is a leading global management consultancy that delivers operational transformation and helps leading companies worldwide achieve and sustain world class performance from their operations.

Our difference is simple – we believe that once we have fixed a problem for a client, it should stay fixed. We have a unique way of achieving this that delivers measurable results on every project.

In 2006 we delivered over \$1 billion in annualised sustainable savings to our clients and over the last 20 years we have become the largest independent firm of business operations consultants with annual revenues of \$145m.

The essence of our approach is that consultants work side-by-side with people in the front lines of the business – from the Boardroom to the shop floor - to ensure the delivery of sustainable and measurable benefits. Celerant embeds long-term behavioural change into the culture of our client's organisations – the key to sustainable change, which we call Closework®.
